Philosophy

At Camarillo Recording Service, we include the word "service" in our business name because that is what we provide. The ultimate in professional wedding videography service.

Having been in the wedding videography business for over 20 years, we recognize that being selected to capture your wedding memories is an important responsibility. We are preserving a part of your family history that will be treasured for many generations to come. Your children, their children, and their children's children will be watching a part of their family history every time they see your wedding.

What an incredible legacy of your love and a wonderful role-model of marriage you are creating for future generations! You owe it to yourselves (and them) to select a professional that recognizes the responsibility that comes with creating a family heirloom.

It is not only our responsibility to serve you, it is also our pleasure.
